One day out of the blue, my sister asked me if I wanted to design some OCs with her. I said, “sure.” Sister said that she had an idea for a lonely vampire girl and her suitors to all be vampire hunters she charms.

Manon
the lonely vampire

I had time that day so I drew this concept sketch of a girl I called Manon (which means bitter). We ended up disagreeing on the hair.

This was my sister's preliminary sketch for the crew. She had a more sculpted idea for Manon's hair in mind.

This time I was the one to disagree, so we teamed up and drew a bunch of Manons in a group session.

Asking friends for feedback on the sketches we made, we combined the most popular aspects into one character, the rightmost design.

With a generally accepted idea of Manon, it was time to design some of the suitors.

万音

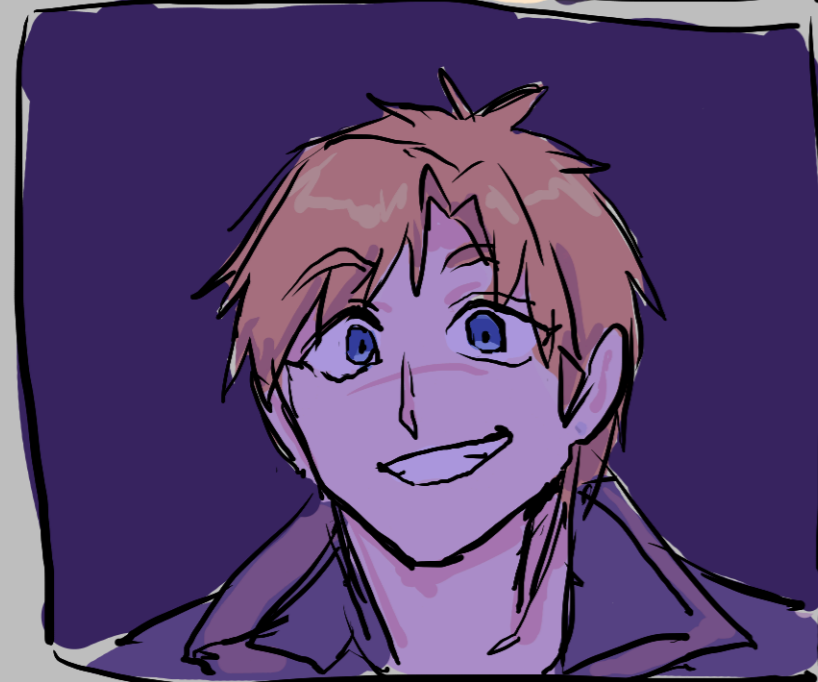

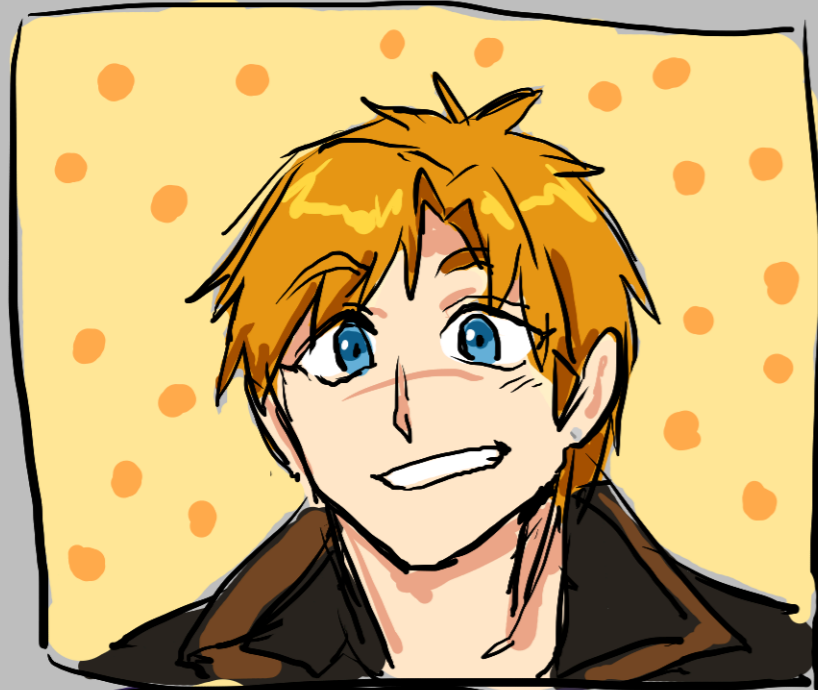

Priest

- NOT secretly evil
- Empathetic to a fault?
- Calm, kind, hard to read
- Catholic guilt

Himbo

- Hunts vampires for wealth and fame
- Slays pussy as well
- Seems dumb and loveable but is cut-throat

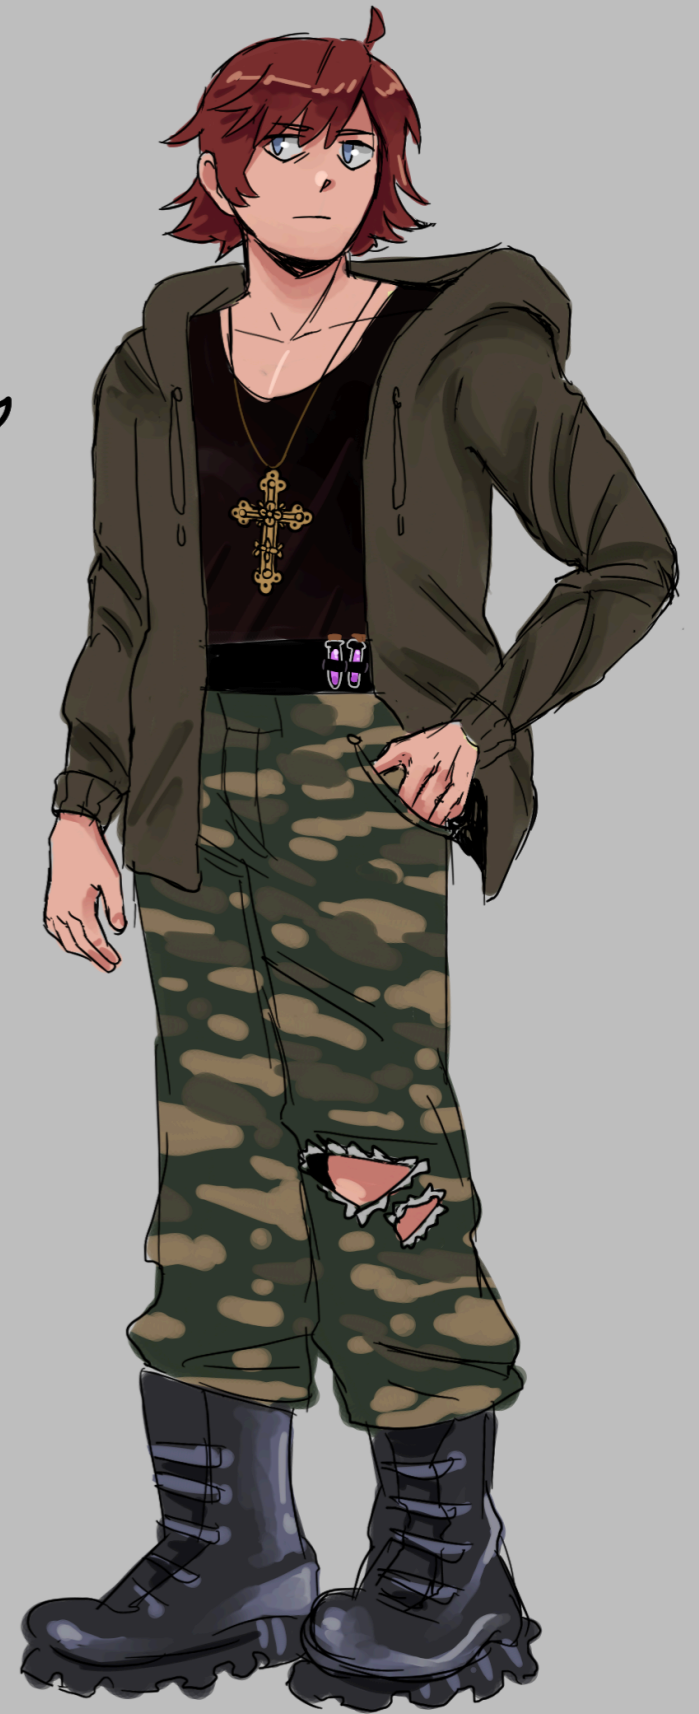

HUNTER

- Broke bitch
- Classic tsundere
- Kind of a crybaby (to priest)
- Somewhat unsuccessful vampire hunter
- Broke because he spends all his money on tacticool vampire-hunting crap

Defeated a vampire in bed

Hunter got a few more designs to make him look a little cooler. I like his camo gear, it makes him look like he shops at army surplus stores.

Werewolf

- Homeless
- Looks stern and emotionless
- Actually pretty emotional
- Long-time friends with MC
- Collects food for her

Prince

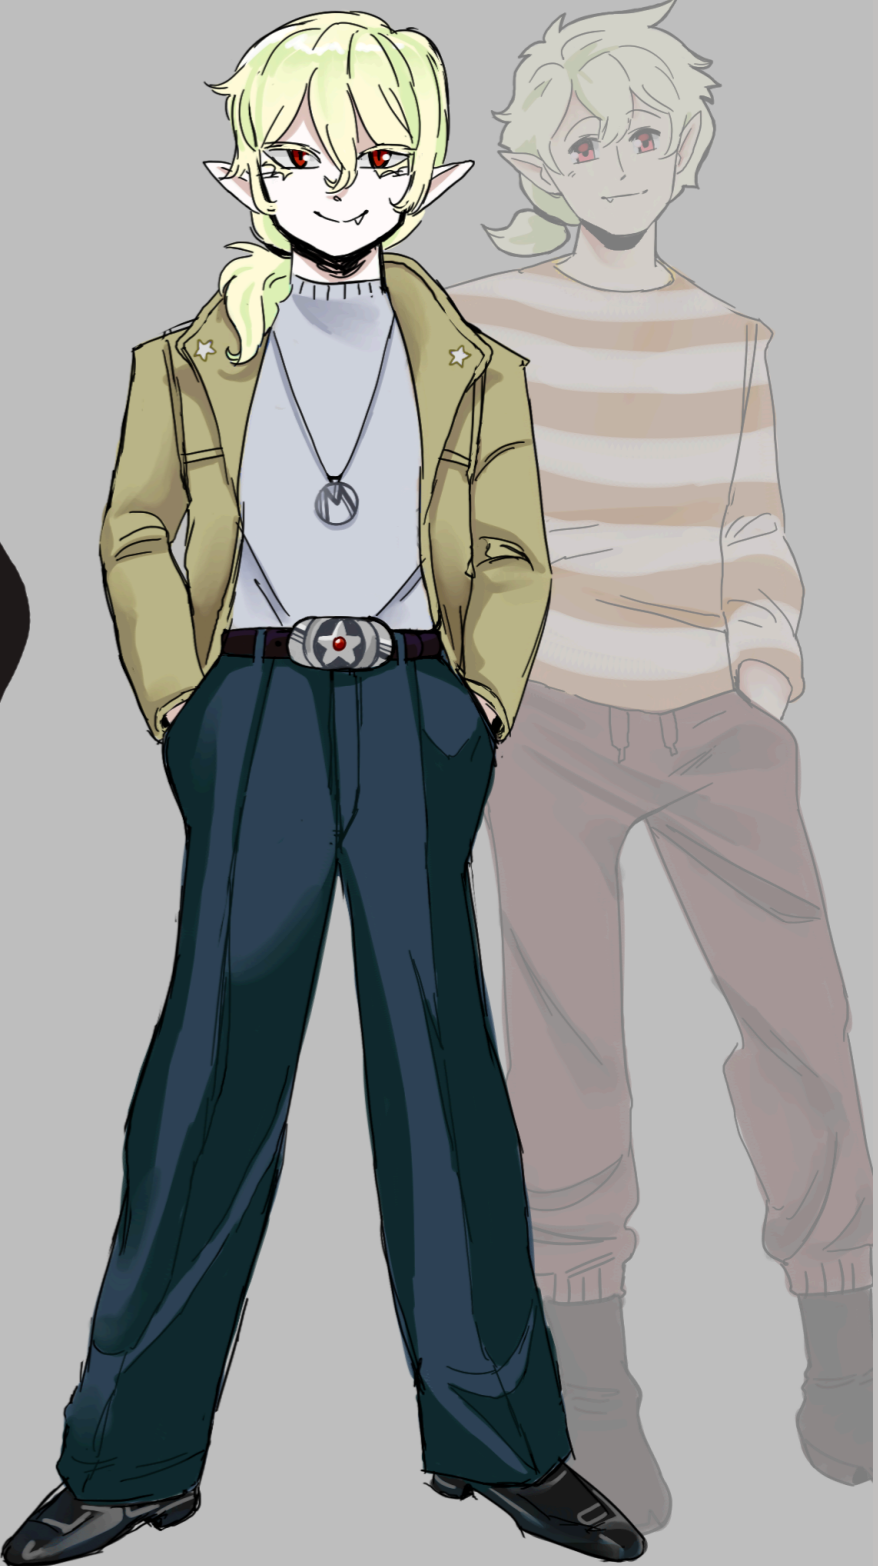

- just not a good person usually
- eros and apollo
- tries very hard to impress others
- is never satisfied with anything
- will not look at naked women as to not defile their honor u_u

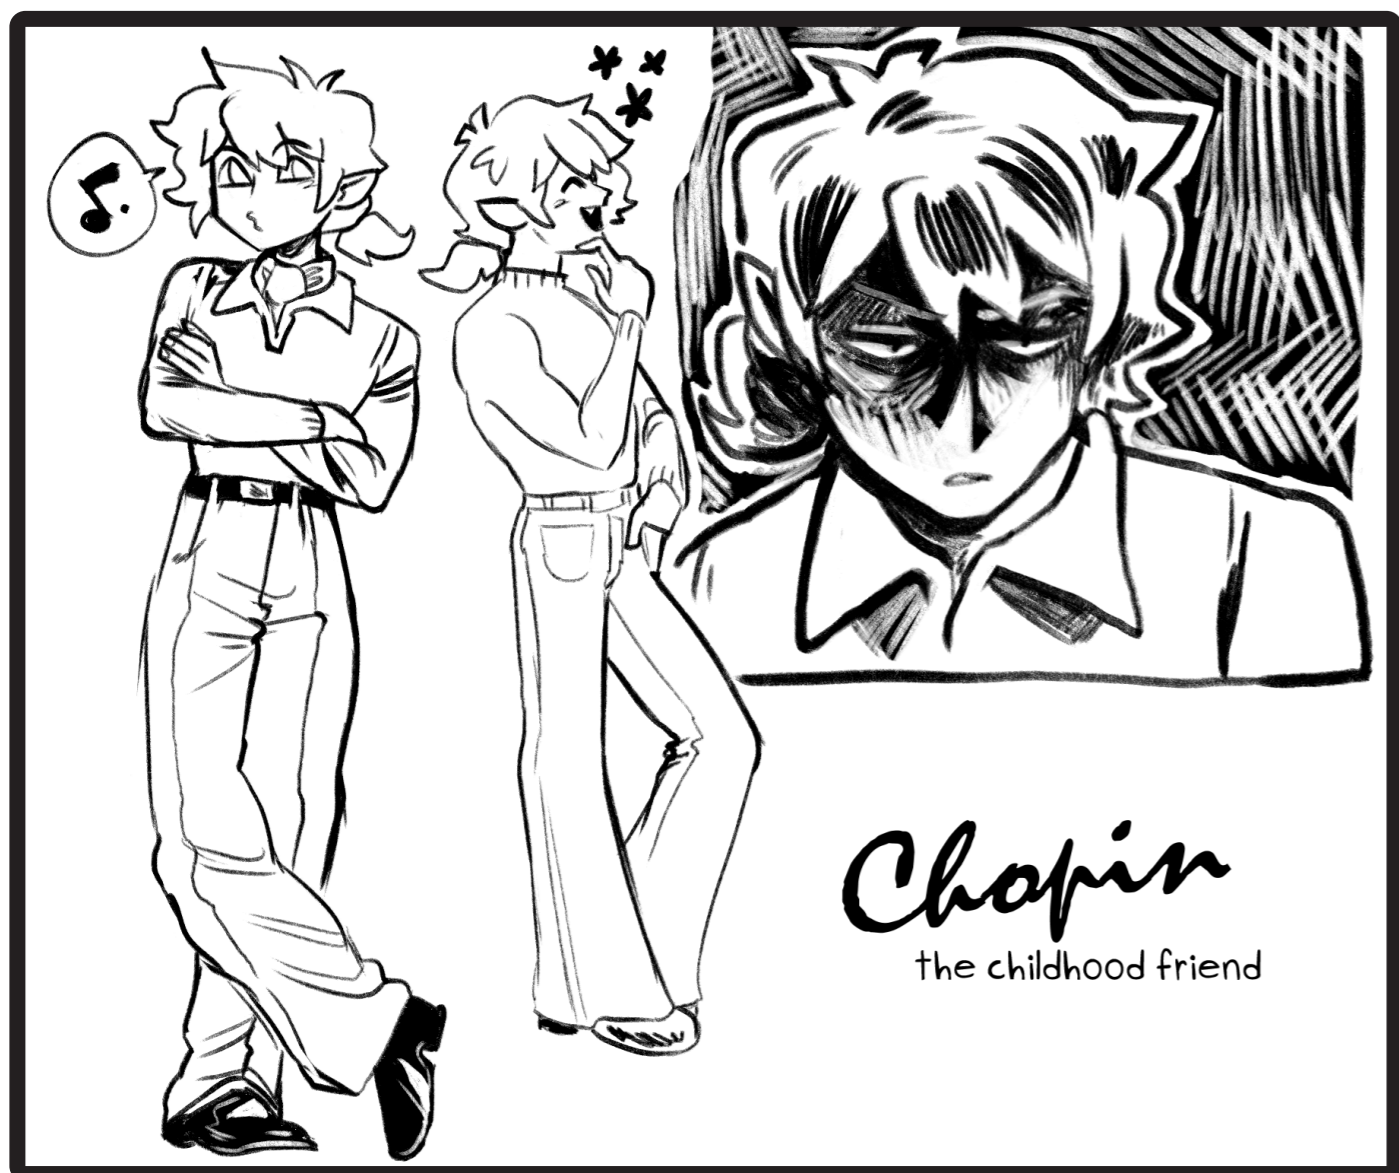

Chopin gave us many problems.

Chopin

- Absolute freak
- Also a pureblood vamp
- MANON MANON MANON
- Looks easy to read, is actually horrifyingly hard to read
- Believes in saving vampire-kind

Here's my original sketch for Chopin. The childhood friend aspect got axed quickly, but the vibes are still mostly the same.

There was also a point in time where Chopin looked more like a pirate.

Lillian was actually the very first vampire I sketched the day my sister brought up the idea. I thought it would be neat to have a more historically dressed vampire that wasn't 1800-something. She would likely be a rival-type character.

If you were a vampire girl...

Would you kiss the guy who's been trying to kill you? It's a tough decision, really. He's very charming in that odd but endearing way. Manon has to decide that six times over, what's a girl to do? If you answered "make a fake otoge to sus out the options," you are correct!

Jawz and Jiie, sister duo, team up to create something cliché and fun. It's pure brain vomit for us in the best way possible. We hope you enjoy the concept art!
